# **ALL ABOUT CHOCOLATE...**

# ORIGIN OF THE NAME.

- ✦ The English word "chocolate" comes from the Aztec language and the word "Xocolatl", means ... bitter water.

# MAIN DIVISION.

- ✘ Dark chocolate - It consists of cocoa butter, cocoa powder and sugar, sometimes with vanilla.
- ✘ Milk chocolate - It also contains milk or milk powder and vanilla and the content of cocoa does not exceed 50%.
- ✘ Dessert chocolate - It consists of cocoa, sugar, lecithin and cocoa butter or other additives.
- ✘ White chocolate - No cocoa powder content. The best chocolate of this kind is only up to 33% cocoa butter.

# THE KINGS DID NOT KNOW EACH OTHER.

- ✘ After his 4 expeditions to America, Krzysztof Kolumb presented the cocoa beans (which is the main ingredient of chocolate) of the Spanish royal couple. King Ferdinand and Queen Isabelle were not impressed and found that cocoa and chocolate were "strange mixtures of wild tribes".

# CHOCOLATE IN THE SPACE.

- ✘ Every space expedition was equipped with chocolate!

# CHOCOATE = RELAX.

---

- ✦ The smell of chocolate helps to relax.

# THE BIGGEST CHOCOLATE PLAQUE IN THE WORLD.

- ✘ The biggest chocolate plaque was made in 2011. She weighed 5 792 pounds and was made in Alfretton, Derbyshire, UK.

# CHOCOLATE FOR THE SOLDIER.

- ✘ Chocolate M&M's was invented in 1941 with the intention of soldiers. Looking for a way to eat unrefined chocolate to improve mood...

# EFFECT ON HEALTH.

- ✦ The consumption of bitter chocolate daily (of course not tons) reduces the risk of heart attack by 1/3, due to the antioxidants it contains.

# MIGRAINE THROUGH CHOCOLATE...

- ✘ Eating chocolate can cause headaches. It is not recommended (large quantities) of chocolate for people complaining about migraine.

# CHOCOLATE CHIPS...

- ✘ Lays sell limited edition potato chips covered with milk chocolate ... of course in the USA.

# FIRST CHOCOLATE...

- ✦ The first chocolate bar was made in England in 1842 by Cadbury.

\$\$\$

- ✘ The world chocolate market in 2016 worth as much as 98 billion! I wonder what it will be in 2018 ...

# CHOCOLATE IS HARMFUL TO CATS AND DOGS .

- ✘ Probably most of you have heard that you should not let them eat chocolate. This treat in the stomachs of our pets can lead to very serious health complications and even death.

# CHOCOLATE IMPROVES MEMORY

- ✦ Regular dark chocolate diet improves cognitive function - memory, attention and concentration show the latest research. All thanks to the flavonoids contained in cocoa.

# CHOCOLATE BUNNIES

- ✦ 76% of people eating chocolate bunny first bites their ears.

# DEATH BY CHOCOLATE...

- ✘ A man can die if he ate a lot of chocolate.

# CHOCOLATE AND BOOKS.

The smell of  
chocolate  
favors  
buying  
books.

# CHOCOLATE AND KISSES.

- ✘ Eating chocolate can speed up your heartbeat more than a kiss.

# SLIMMING CHOCOLATE...

- ✦ It turned out that people eating one or several chocolate cubes a day are thinner than those who try to eat chocolate as little as possible. Research shows that the frequency is the most important for the body. This means that it is best to succumb to temptation regularly - preferably eat 3 dice even 5 times a week.

# THE END. 😊
