I create drawings

- My big passion is drawing pictures. Every day I draw small pictures. I am best at drawing flowers and animals. I have a book in which there are pictures that show how to draw a given thing. In my room on the wall I hang my paintings.
- I also have a painting set. These are:
 - Acrylic paints and watercolors
 - Brushes
 - Canvas

My whole set

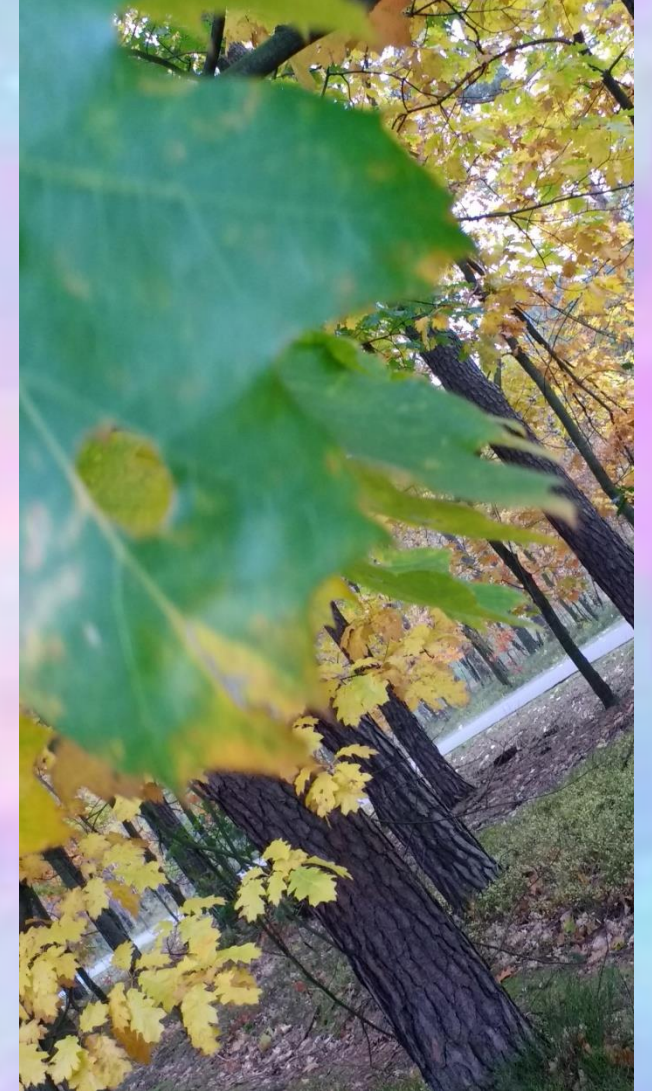

And my paintings (two selected)

Taking photos

- I love taking photos. Every day I take my phone and I take pictures of different things. I have an idea to make an album with these photos. A lot of people like my pictures.

Singing songs

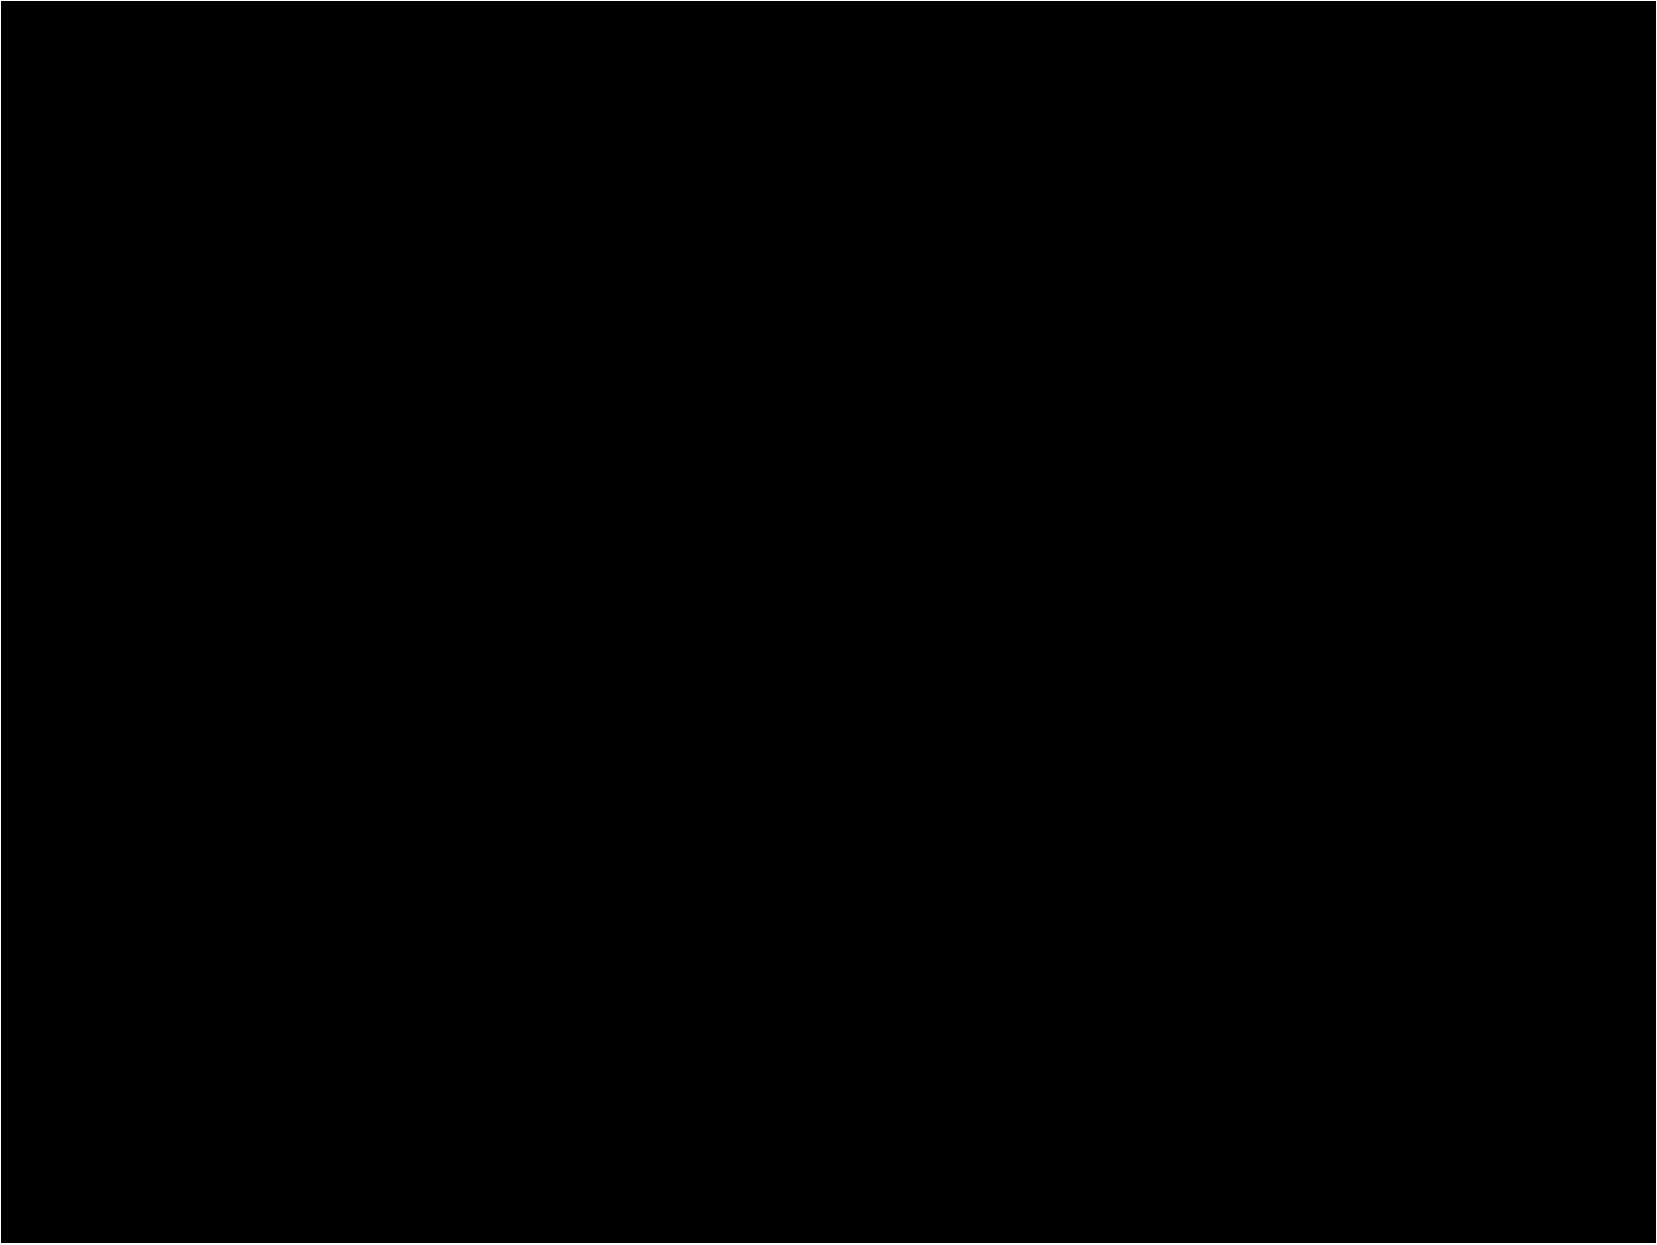

- My third passion is singing. Every day I turn on the radio and I sing. My idol is Ariana Grande. She's 24 years old and she is from the USA (Florida) I like her songs because they are very interesting and touching. My favourite band is Bars and Melody. These are Charlie Joe Lenehan and Leondre Antonio Dervies. They're from Great British.

My Idols

Making short videos

- I really like making videos. I have a very good application - Musical.ly. In this application I can create interesting videos. In the folder you can see two films. I encourage you to watch them.

Dancing

- My last passion is dancing. I can dance SURFLE DANCE. This dance is very difficult and complicated, but I quickly learned to dance it. This dance is my favourite. I invite you to watch this dance.
